## Our Story

Caitlin & Cory were inspired to open a cat cafe while living overseas in Japan. The country is home to hundreds of cat cafes and they were instantly captivated by the unique concept. Their passion for animals combined with their love of entertaining made the idea of opening a cat cafe an absolute dream job. After 3 years abroad they returned to Washington on a mission to open NEKO. Despite the fact that most people thought they were crazy, they pushed through to make NEKO a reality. Thank you for supporting a wild dream come true! P.S. NEKO means cat in Japanese!
