Our Story

Caitlin & Cory were inspired to open a cat cafe while living abroad in Japan. Japan is home to hundreds of cat cafes and they were instantly blown away by the unique concept. They returned to the US on a mission to create the kind

of place most people didn't even know existed – a cat cafe! Their lifelong passion for animals and love of hosting made the idea of owning a cafe filled with cats the ultimate dream job. Despite most people thinking they were crazy, they turned a wild idea into a reality. Thank you for supporting a crazy dream come true!
